Notes: Please do the DDL and Insert Data based on the above tables before answer these questions!

1. Find **CUSTOMERNAME** who purchased albums released in both 2016 and 2021:

customername
character varying (50) 🔒
ERPHAN PURNOMO

2. Find **SINGERNAME** who released an album before the album titled "LYODRA" was released:

singername
character varying (20) 🔒
RAISA
TULUS
AFGAN

3. Find other **SINGERNAME** whose album prices are higher than the prices of some albums by Tulus:

singername character varying (20) 🔒
RAISA
AFGAN

4. Find **CUSTOMERNAME** and total of **TOTALPRICE** for each customer (the price must be rounded to 1 decimal places):

customername character varying (50) 🔒	total numeric 🔒
NATHAN ANDREO	281000.0
THRESSYE NATALIA	325000.0
ERPHAN PURNOMO	720000.0

5. Find the percentage of the number of Tulus's albums sold to the total albums sold (the percentage must be rounded to 2 decimal places):

percentage numeric 🔒
31.58
